

RAELENE VALESKA DOOKKOO

Final-Year Bachelor of Information Science (Informatics) | University of Pretoria

063 508 7978 | raelenevdookkoo@gmail.com | [linkedin.com/in/raelene-dookkoo](https://www.linkedin.com/in/raelene-dookkoo) | [RaeleneV.github.io](https://raelenev.github.io)

PROFILE

Final-year Bachelor of Information Science (Informatics) student with strengths in systems analysis, information architecture, project management, and digital design. Experienced in translating complex requirements into organised, user-focused solutions through academic and community projects. Recognised for strong organisational skills, attention to detail, and the ability to lead teams from planning through delivery.

TECHNICAL SKILLS

Web Development HTML, CSS, JavaScript, jQuery, responsive design, MVC, GitHub

Systems Analysis Requirements analysis, UML diagrams, use case narratives, business process modelling, wireframing

Information Architecture Content organisation, metadata, classification, navigation design, document management

Visual Design Design principles, visual hierarchy, aesthetic and functional evaluation, design in digital environments

Publishing & Content Copy-editing, proofreading, digital and print content production, layout and typography

Software Development C# and JavaScript, object-oriented programming, debugging, testing

Database Management Advanced SQL, database lifecycle management, transaction management

Project Management Jira, GitHub Kanban, Google Workspace, task planning, milestone tracking, team coordination

Adobe Creative Suite Photoshop, Illustrator, Animate, graphics, photo editing, and animation

Platforms & Tools SharePoint, Microsoft 365, Google Drive, GitHub, InDesign, Acrobat

KEY STRENGTHS

Analytical

Attention to detail; maps systems, spots patterns, structures complexity

Creative

Designs with usability and function in mind

Leader

Sets roadmaps, manages Jira boards, and takes initiative to keep projects organised and progressing

Organised

Plans everything before starting, organises digital and physical documents efficiently

Communicator

Translates between technical and non-technical people; makes information clear

WORK EXPERIENCE

Administrative Support, Dookkoo's Woodcraft

2020 – Present

- Managed invoicing, payment processing, financial records, and operational documentation for a small business, ensuring accurate record-keeping and supporting efficient daily operations.
- Improved information organisation and document accessibility, contributing to more efficient workflows and reducing time spent locating critical business information.

VOLUNTEERING

Volunteer, New Life Church & RCS Primary School

2014 – 2020

- Sustained volunteer support across church and school settings, contributing to childcare, leadership, administration, hospitality, and office coordination activities.

References available on request.

Informatics, Systems & Web Projects, University of Pretoria

2021 – Present

- Built responsive websites and web applications using HTML, CSS, JavaScript, and C#, both individually and in teams.
- Produced complete system specifications including UML diagrams, use case narratives, activity diagrams, and wireframes.
- Worked with advanced database concepts including transaction management, stored procedures, and database lifecycle.
- Created motion graphics, infographics, and a comic book portfolio applying visual design and publishing principles.
- Customised SharePoint environments for team information management; managed tasks and milestones using Jira and GitHub Kanban.
- Consistently took the role of team leader and project manager across group work, setting roadmaps, delegating tasks, tracking milestones, and keeping documentation in order.

Community Based Project (JCP202) – Team Leader, Keep That Gold Shining – 91%

2023

University of Pretoria, formal graded project module

(This project was undertaken as a genuine community volunteer initiative)

- Planned, managed, and delivered a community initiative from inception to completion.
- Applied project management principles including goal setting, scheduling, task delegation, and stakeholder reporting in a real-world context.
- Led a volunteer team delivering computer literacy education to high school students in rural communities, helping increase awareness of digital skills and technology access.
- Coordinated full programme planning, task delegation, scheduling, and delivery across the team, ensuring the successful execution of project objectives.
- Produced educational videos and digital awareness materials on technology access and digital literacy that supported community engagement and learning initiatives.

EDUCATION

Bachelor of Information Science, Informatics

2021 – 2026

University of Pretoria – Expected graduation: November 2026

- Core modules: Systems Analysis & Design, Web Development, Database Management, Information Architecture, Visual Design, Multimedia, Publishing, Business Management.
- Distinctions in: Academic Information Management (85%), Information Science modules (83%, 81%, 79%, 78%, 75%, 83%), Database Management (81%), Community Project (91%), Project Management (93%).

Certificate: Personal and Company Income Tax for Beginners

2024

Udemy

- Self-initiated and completed independently to broaden knowledge beyond core studies

Certificate: Next-Generation Cyber Security

2024

Huawei Certification

- Self-initiated and completed independently to broaden knowledge beyond core studies

National Senior Certificate (Matric)

2019

HTS Witbank

INTERESTS

Painting & Art · Reading Fiction · Web design & Digital creativity · Continuous Learning
